

**Call for decentralized actions:
international day of action against repression 10th of
March 2012 – Free J.A.I.B. (Vienna)**

This process must be seen in continuity with the worldwide organized (state)repression against political autonomous people. Here we must realize that the only remedy against repressive state suppression is solidarity and networking.

After the “Beograd 6” in June 2010 were acquitted of all charges (international terrorism), this level of repression against those six anarcho-syndicalists finds no end. On the 8th of February the trial will in Beograd will be resumed.

In September 2011 Sonja and Christian haven been handed over to German officials after living 33years in France in exile. They are being accused of the membership of the Revolutionary cell in the 70s. Even after 33 years the harassment of the judiciary of the Federal Republic of Germany continues.

In July 2011 widespread protest against the construction of the massive railway project in Val di Susa (Italy) have taken place. In the following January more then 40 activists were arrested and remain still in jail.

Worldwide, several housing and independent space projects representing an alternative attempt to live beyond normal conditions were violently evicted by police forces around the world.

These are just a few examples of a never-ending wave of repression and arrests worldwide. This well known practice of State / Justice apparatus / Police violence against politically autonomous structures seems also to increase in Vienna in the last several years.

On 13th of March this trial will reach its climax despite of the flimsy evidence at the criminal court of Vienna.

This once more shows repressive force of state power to intimidate critical people and voices of resistance.

We will not be intimidated, we will resist!

On the 10th of March there will be an anti-repression demonstration in Vienna.

But there are many ways to show your solidarity and resistance.

By fighting this oppressive system we will support all forms of action.

May your anger and creativity run wild, let it be direct, decentralized, autonomous, colorful or black. Every action will materialize in your own outburst.

We call and support in every form and way of action.

We call for an

international day of action against repression on the 10th of March 2012!

ALLEIN MACHEN SIE DICH EIN
